NORTH ZONE

METER SIZE	Cost per mtr	Water Dev.	Wastewater		Total
¾ inch displacement	\$503.00	\$8,317.00	\$3,886.00		\$12,706.00
1 inch displacement	\$550.00	\$13,890.00	\$6,490.00		\$20,930.00
1.5 inch displacement	\$831.00	\$27,696.00	\$12,942.00		\$41,469.00
1.5 inch turbine l/s	\$1,053.00	\$27,696.00	\$0.00		\$28,749.00

Meters larger than 1.5 inches calculated using \$21.21 per gallon (water) and \$27.76 per gallon (wastewater) for the north service area multiplied by average day gallons from (1) City of Goodyear Engineering Standards, (2) a submitted water study, or (3) other estimated water demand/wastewater flow.

South of the Gila River

SOUTH ZONE

METER SIZE	Cost per mtr	Water Dev.	Wastewater		Total
¾ inch displacement	\$503.00	\$8,836.00	\$5,918.00		\$15,257.00
1 inch displacement	\$550.00	\$14,756.00	\$9,883.00		\$25,189.00
1.5 inch displacement	\$831.00	\$29,424.00	\$19,706.00		\$49,961.00
1.5 inch turbine l/s	\$1,053.00	\$29,424.00	\$0.00		\$30,477.00

Meters larger than 1.5 inches calculated using \$21.98 per gallon (water) and \$42.27 per gallon (wastewater) for the south service area multiplied by average day gallons from (1) City of Goodyear Engineering Standards, (2) a submitted water study, or (3) other estimated water demand/wastewater flow.
