From the Mayor

Mayor
Georgia Lord

There's no doubt that there's a lot of uncertainty right now in the world. We are living in unprecedented times. The impacts of the Coronavirus, also known as COVID-19, are rapidly changing. As we all adjust to changes in our daily life, there's one thing that will remain - our resilience.

We've been through tough times before together

and we built our way back up to become one of the fastest growing cities in the nation. When times are challenging, I am so proud to see our great city come together. I continue to see and hear stories of residents helping each other and stepping up to protect the health and wellbeing of our community.

As a city, we are staying in close contact with state health officials to ensure we continue to be proactive in reducing the spread of the virus. The city of Goodyear is committed to continuing to deliver exceptional services that our residents depend on while keeping our community safe. We're also finding ways to reduce exposure between employees and residents.

As the current events continue to evolve, we encourage you to stay up-to-date on community impacts in Goodyear and how you can be aware, stay safe, and reduce the spread at goodyearaz.gov/coronavirus.

Goodyear is resilient. We will come back stronger than ever.

Council Corner

Many people might not realize that the first U.S. Census took place in 1790. It was one of the first major endeavors taken on by our young nation and it was no easy task to accomplish.

Back then, enumerators

traveled miles and miles on horseback. The work was worth it to our Founding Fathers who recognized the value of an accurate population count and included it in the Constitution.

While times have certainly changed, the significance of the census has not. It is important that all Goodyear residents are counted in 2020. One of the most important aspects of the census is that it is used to determine federal, state and local funding for programs which directly impact our residents. These federal funds support community programs and services like Head Start, Medicaid, Temporary Assistance for Needy Families, and the Children's Health Insurance Program that benefit some of the

most vulnerable in our city. The census is also used to allocate key infrastructure and transportation services, including maintenance and construction of roads, bridges and highways. It is imperative that we get an accurate count of our growing population so that we get our fair share of the money.

The census also determines how many Congressional members we have in the U.S. House of Representatives. The census will be the basis for the reallocation of Congressional seats to states that are growing in population, and Arizona is growing fast! By participating in the census, you will make sure that you are fairly represented at the local, state and national level.

From the first census on horseback to the 2020 census that can be completed confidentially in a matter of minutes online, times have changed but its value hasn't. Please make sure you are a part of this historical process and participate in the census. You can be sure to count me in!

What is the Census?

The census counts every person living in the United States.

It's done every 10 years by the U.S. Census Bureau.

The United States had its first census in 1790, which counted 3.9 million people. The last census in 2010, counted 308 million.

Goodyear Population (based on census)

*In 2015, the city of Goodyear conducted a special census due to significant growth.

2020 population = ?

DID YOU KNOW? If the 2020 Census accurately reflects Arizona's population growth, the state is expected to gain a seat in the House of Representatives.

Goodyear Wins When You Count

An accurate population count ensures Goodyear gets the money it needs for critical programs and services. It also gives businesses an idea of who's living where, so they know where to open new stores or offer new services.

Your count ensures
Goodyear's fair share
of \$675 billion in
federal funds
to support:

Daily
Operations

Education

Housing

Public
Transportation

Public
Safety

Healthcare

Senior Care

Street Repairs

Neighborhood
Improvements

Parks and
Recreation

Money received based on the city's population has recently made it possible to:

- Resurface roads
- Improve street lighting, signs, parking and landscaping
- Replace water lines
- Enhance parks with lighting, new playground equipment and accessibility improvements

For every person counted, Arizona receives money from the federal government and that money is then given to cities based on population.

Got 10 Minutes to Spare?

For the first time, the census can be done online. Simply visit 2020census.gov to get started. Depending on how quickly you complete the census, you could avoid receiving additional mailings and a knock at your door from a census worker.

The census questionnaire is 10 questions about each household member including name, age and race. To see a sample questionnaire, visit iCount2020.info.

The 2020 Census is Accessible for Everyone.

3 Ways to Complete the Census

You can respond **online** in English or in 12 additional languages. There is also a video in **American Sign Language** available to guide you through responding online.

You can respond by **phone** in English or in 12 additional languages. You can also respond by **TDD** at 844-467-2020.

You can respond by mailing a **paper questionnaire**.

Braille and large print guides are available online to assist you with completing the paper questionnaire.

Is My Information Safe?

The U.S. Census Bureau understands the need to protect everyone's right to privacy and keeps answers completely confidential. Responses cannot be shared with any other person, organization, court, business or government agency for any reason.

U.S. Census Bureau staff members are committed to keeping your answers safe and making sure everyone feels comfortable answering the survey. That's why they take a lifetime oath to maintain your privacy and never reveal information about your identity.

Under Title 13 of the U.S. Code, staff members face up to five years in prison and/or a \$250,000 fine for violating that oath.

Protect Yourself from Scams

The U.S. Census Bureau is committed to making the 2020 Census quick, easy, and safe. Unfortunately, there might be people trying to take advantage of this important time for the country.

Keep these safety tips in mind as the census begins.

Be safe online! The U.S. Census Bureau will not send unsolicited emails to request your participation in the 2020 Census and will never ask for your Social Security number, bank account or credit card number, or money.

Take caution *before* you open an email.

Phishing is a criminal act where someone sends you an email disguised as a trusted entity. Once the email is open, you may be directed to a website that looks real but is fake and it may be infected with malware.

Call the police department immediately to report suspected fraud.

Bridging the Gap

April is Autism Awareness Month, but for the Goodyear Police Department, autism awareness is practiced daily. Goodyear Police has made it a priority to find ways to connect with the autism community through education and hands-on training. That means educating community leaders and those living with autism and their families about safe interactions with police and firefighters.

As a member of the West Valley Crisis Intervention Team, the Goodyear Police Department also trains other first responders on how to bring calm to tense situations when interacting with individuals who may be suffering from various mental health issues, including autism.

Goodyear Police has become a model agency for taking an intentional and proactive approach to embracing and uniting the mental health community and professional partners with the goal of making the department's sworn members and dispatchers highly-trained in mental health awareness, recognition and safe interaction.

10 to Throw in the Bin

In Goodyear, the current recycle rate is 25%. Why don't more people recycle? Part of the reason is the uncertainty of what's recyclable and what's not.

Here are the top 10 items you should recycle:

- | | |
|------------------------------------|-------------------------------|
| Soda cans | Envelopes |
| Water bottles | Post it Notes |
| Milk and water jugs | Cardboard boxes |
| Cereal box (remove plastic inside) | Laundry detergent plastic jug |
| Paper egg cartons | <i>This InFocus Magazine!</i> |

Unlike trash, recyclables should not be bagged.
